AEA builds on Waste expertise

Leading climate change and energy consultancy AEA has made a number of strategic new appointments to its growing waste management and resource efficiency division, under the leadership of Knowledge Leader Dr Adam Read.

A total of five people have recently joined AEA's waste management team. The new hires bring their extensive experience of working within the public and private sectors, having been involved with clients like Thurrock Borough Council and Essex County Council, a range of local authorities in Wales, as well as involvement in NHS auditing schemes. These appointments will not only help to strengthen AEA's waste capability, but bring additional specialist skills, further enhancing AEA's business offerings

AEA's new waste experts include : Hannah Lawrie , who will be heading up the waste strategy and procurement work streams; Andy Godley - providing technical leadership in all aspects of biological treatment; Ruth Hunter – who will lead the delivery of consulting services; Gareth Morton - formerly at Ptarmigan and SWAP, and the driving force behind the Rethink Rubbish Campaign –(the precursor to Recycle Now) will lead on communication strategies; and Victoria Bond will lead the waste management team in Wales.

Robert Bell, Operations Director, AEA said:

“This is an exciting time for the AEA Waste Team. These new recruits provide AEA with increased momentum and direction for the new financial year and under the guidance of their Knowledge Leader Adam Read we are able to offer a greater breadth and depth of analysis and advice to our clients.”

Dr Adam Read, added,

“I am looking forward with a great deal of optimism to working with this new team and to develop AEA’s business offerings within waste management.”

About AEA

AEA is one of the world's leaders in the field of climate change and energy consultancy - operating in the UK, Europe, the US and China. It is the leading provider of advisory services to the UK Government and works extensively with the EU and major private sector organisations. With internationally renowned expertise in air quality and climate change, carbon management, resource efficiency and the environmental impacts of transport, AEA employs many world leading experts and provides a high-level of policy consultancy and a range of technical services to its public and private sector clients.

AEA manages the UK government’s Envirowise project, one of the world’s largest resource efficiency programmes and provides carbon management expertise to many of the UK’s largest private sector organisations.

AEA is voted Number One Consultancy for Climate Change and Renewables by industry consultants (Edie surveys 2006, 2007 and 2008).
